June 2023

“It’s difficult to think anything but pleasant thoughts while eating a homegrown tomato.” – Lewis Gizzard

Welcome New Garden Members

Please join me in welcoming four new garden members this year:

- Ariel FitzHugh – Plot 5A
- Cameron Frecker – Plot 19
- Katherine Bryant – Plot 36.5
- Brenna Robeson – Plot 37.5

The Plot Lay-Out & Assignments sheet has been revised and is posted on the bulletin board that is hung on the inside of the shed door.

New Roof on the Shed

On Tuesday, June 6th, Joseph Savini Roofing of Medford, MA, installed a new roof on our shed as displayed in the above picture.

In Case You Didn’t Know

There is a plastic food storage container in the shed that contains packages of flowers and vegetable seeds. Some of them are outdated but there are other packages that are new. For example, I just added two packages of okra seeds that are dated through 2023.

Future RCG Gardeners

On May 19, 2023, Carol Rickenbacker, who maintains the McGlynn School Plot at Riverbend Community Garden (RCG), had students visit RCG to learn some gardening skills. They also learned about different plants and composting.

Pictured above with the students is RCG member Mary Werowinski who also spoke to the students about planting.

2023 Workday Schedule

In the very near future, we hope to have the entire 2023 Workday Schedule posted on our Weebly website. This may be helpful to anyone who doesn’t remember the workdays that they signed up for.
