**June 2022**

---

***"Never underestimate the healing power of a quiet moment in the garden." - Nature Hills Nursery***

---

### **Happy 4<sup>th</sup> of July!**

Be safe if you travel and enjoy the 4<sup>th</sup> of July holiday weekend or vacation with family and friends.

---

### **When You Return**

Some garden members are disposing of old wood by or behind the compost bins. Others are leaving their empty pots, gardening tools and other personal effects in the common area stone dust paths.

As a reminder:

- All old wood **MUST** be removed from the garden.
  - All empty pots, gardening tools and other personal effects **MUST** be stored in your plot or disposed of in any one of several trash cans in front and rear of the garden and down by the dog park and little league field.
- 

### **Welcome New Garden Members**

Please join me in welcoming two new garden members to Riverbend Community Garden:

- Tonya Salerno is gardening in Plot 19 that was vacated by Andrea Jones. Martin and Rebecca Stevenson.
- Sai Potluri is gardening Plot 31 that became vacated this spring.

Our 2022 Roster is complete as we begin our 2022 Garden Season.

---

### **Please Conserve Water**

The Northeast and Southeast Regions of Massachusetts are in significant to critical drought status due to lower than normal rainfall for the past three months.

Please conserve your use of water at the garden, completely close the tap, make sure that water isn't dripping out of the hose and put the hose back onto the hose holder.

We are going to replace some of the failing hose holders this weekend.

---

### **July and August Workdays**

The following are the tentative work days for July and August:

Monday July 11  
Monday August 15
